Module name or Cost Code

If you are a student and your print is part of a project, please input the short abbriviation of your module name or course. The system will recognise most of the standard modules that are registered with the workshop.

If your abbriviation was not recognised, please contact the demonstrator.

If you are a PostGrad student, postdoc or an academic, please input the Cost Code that will be charged for the current print. If in doubt or if you have any questions, please contact the demonstrator.
